TEST CASE ID	TITLE	CATEGORY	EXPECTED RESULT
▶ TC-001	Secretary logs in and accesses doctor calendar	Positive	Secretary is authenticated, the Doctor Calendar view loads, and the selected doctor's schedule is displayed
▶ TC-002	Add a new appointment with valid data	Positive	Appointment is created, appears in the calendar at the selected time, and a success message is shown
▶ TC-003	Edit an existing appointment with valid changes	Positive	Appointment details are updated, the calendar reflects the new time and reason, and a confirmation message is displayed
▶ TC-004	Delete an existing appointment	Positive	Appointment is removed from the calendar and a success notification appears
▶ TC-005	Filter calendar by specific date range	Positive	Calendar displays only appointments that fall within the selected date range
▶ TC-006	Attempt to add an appointment with a past date	Negative	System shows a validation error stating that the appointment date cannot be in the past and the

▶ TC-006	Attempt to add an appointment with a past date	Negative	System shows a validation error stating that the appointment date cannot be in the past and the appointment is not saved
▶ TC-007	Attempt to add an appointment that overlaps an existing one	Negative	System displays an overlap warning and prevents the appointment from being saved
▶ TC-008	Unauthorized user attempts to access Doctor Calendar	Authorization	User is redirected to an 'Access Denied' page or login screen with an appropriate error message
▶ TC-009	View calendar when no appointments exist for the selected doctor	Edge	Calendar displays an empty state message such as 'No appointments scheduled' without errors
▶ TC-010	Load calendar with maximum allowed appointments in a single day	Edge	All 100 appointments are displayed correctly, UI remains responsive, and no performance degradation is observed beyond acceptable limits
▶ TC-011	Enter excessively long patient name when creating an appointment	Negative	System either truncates the name to the allowed limit with a warning or rejects the input with a validation error indicating maximum length exceeded
▶ TC-012	Calendar page loads within acceptable performance threshold	Non-Functional	Calendar loads and renders completely within 2 seconds on a standard broadband connection
▶ TC-	Responsive layout on	Non-	All UI elements are visible, usable
